Born in 1994 in San Diego, SPY+ hails from the crossroads of the cultures that define California youth.

Concrete / Water / Snow / Dirt / Art / Music

This realm of non-conformity bleeds self-expression at its core and is the driving force behind everything we do.

The name SPY+ represents our role as agents of this culture from which the brand was born.

Our “Cross” icon is a symbol of the intersection of ideas that spark positive revolution.

Our flagship orange embodies our spirit of warmth and good vibes.

+ + + +

CHANGE

They exist in multiple dimensions of expression.

They are outside of control, yet not out of control.

Brashly individualistic, our people are agents of positive action that walk along the edge of what is now and what is next.

AGENTS

+ + + +

Our endless pursuit of positive cultural evolution is symbolized by tools that have a profound impact on how you see the world.

Our calling is to build the best products that empower individual expression for as many people as possible.

We are a design-driven brand.

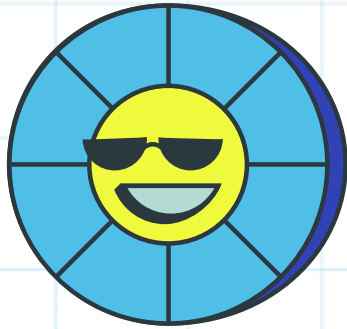

We challenge the common ideals of the status quo and embrace the arcane, eccentric, and revolutionary.

We are champions of originality, and the products we make are symbols of pure freedom to be yourself.

ANTI-REFLECTIVE COATING

Provides clearer vision via a coating on the backside of the lens

BIO-PLASTIC FRAMES

Select frames constructed of Bioplastic, which is comprised of 50% organic plant matter that is both lightweight and durable and aids in reducing plastic consumption

ARC® (Acurate Radius Curvature)

Polycarbonate Optical Class 1 grade lenses that are tapered to follow the natural curvature of the eye, providing crystal-clear distortion-free vision

BLOCKS HARMFUL BLUE LIGHT

Blocks most of the harmful blue light emitted by electronic devices, reducing eyestrain and fatigue, while supporting healthy sleep

HAPPY™ LENS TECH

Scientifically tuned to enhance contrast and details while boosting mood and focus

100% UV PROTECTION

Reduces eye fatigue and long-term damage

Featured Style: Crossway

+ Reduces Eyestrain

HAPPY BOOST
SEE MORE. FEEL BETTER.

SUPER-VIVID COLOR AND CONTRAST + HAPPYLENS TECH = HAPPY BOOST

We created a lens with color so vivid and details so sharp, it will not only boost your mood,
it will also redefine how you see the world. A truly euphoric visual experience.

We call it **HAPPY BOOST**.

THIS LENS WILL REDEFINE HOW YOU SEE THE WORLD.

HAPPY BOOST™ was born out of a desire to create the ultimate outdoor experience by adding a mind-blowing amount of color and contrast to our already patented therapeutic lens. Mission accomplished.

Using the space-age power of AI, the mad scientists in SPY+'s E.P.I.C. Lab tested millions of color formulas and in the end, there was only one worthy enough to be called HAPPY Boost™.
